Riyadh, Saudi Arabia

July, 23, 2024

Center3, a wholly owned subsidiary of the stc Group, and Datavolt, a long-term developer, investor, and operator of sustainable and scalable data centers, have announced signing of a Memorandum of Understating (MOU) to provide operations and maintenance services for data centers.

center3 and DataVolt will collaborate to provide operations & maintenance services for data centers in the Kingdom of Saudi Arabia, with potential expansion to other regions.

The partnership aligns with center3's strategic vision to enhance its service offerings and DataVolt's commitment to expanding its operational footprint through sustainable innovations, ultimately driving innovation and efficiency in the data center industry.

The collaboration will leverage the combined expertise and resources of both companies, ensuring best-in-class service delivery. This initiative underscores both center3's and DataVolt's dedication to fostering sustainable growth and technological advancement within the data center sector in the Kingdom of Saudi Arabia and beyond.

About Center3 and DataVolt.

DataVolt is a leading innovator in state-of-the-art and sustainable data center solutions, empowering businesses across the globe to connect, collaborate, and grow in today's data and AI driven world, providing sustainable, scalable, and flexible data Centers solutions.
With strategically positioned operations in Riyadh, Dubai, Tashkent, and California, DataVolt offers businesses the robust digital infrastructure necessary to succeed in the rapidly evolving digital landscape.

DataVolt is committed to build and operate 300MW data centers in KSA by 2030 in support of the kingdom's vision, with an investment of 5 billion USD in the digital and AI infrastructure.

Center3, previously known as project "MENAHub". With existing and planned assets. The vision of cemter3 is to position the Kingdom of Saudi Arabia as the heart of international data connectivity, connecting Europe, Asia, and Africa, while also becoming a data center hub for the MENA region. Due to its strategic geographical location, KSA is an ideal location for hosting content and cloud applications, serving the surrounding countries as well. With its integrated platform, center3 aims to provide hyperscalers, gaming and content providers, cloud providers, and global international carriers with unparalleled flexibility and speed to better serve their regional customers.
